

HORNET CARE

PURPOSE

Hornet Care is a partnership between Azle ISD and Parker County Hospital District Outreach Program, to provide medical care onsite at each campus. Through the use of telemedicine and the Medpod Medical Cart, the healthcare needs of staff and students can be met in a convenient setting with each campus nurse. Hornet Care's purpose is to increase the educational success of students and staff by assuring access to healthcare. Early treatment can decrease the need for expensive medical care and unnecessary Emergency Room visits.

Is Treatment Available to Everyone?

To receive treatment the student or staff member must be enrolled. Registration must be completed online or a paper consent filled out prior to treatment.

Staff: \$30 visit fee will be collected at time of service. Paid by credit card/FSA card only. Commercial insurance will be billed for services provided when possible.

Students:

Students with private health insurance or are covered under Medicaid will have provided PCHD with that information during enrollment. Copayment will vary and be discussed prior to visit.

If a student does not have health insurance, we will provide them with options.

Who are the Staff?

STEVEN WELCH, DO

Elizabeth Hingley, FNP-C

Mary Grace Vaughan, NP
